CHAPTER 1: AT LEGO WORLD

Sam, Harvey and Lincoln went to Melbourne on a plane with their mums and dads.

They went to see Lego World.

At Lego World, Harvey saw a ferris wheel made of lego.

Sam saw a statue of a lego fish.

Lincoln saw an angry bear made of lego.

Sam's dad said, " Hey Sam!-Go and build a lego monster truck and an army tank."

Sam got some wheels. He got some big blocks and a windscreen.

He put them together and he built the truck and the tank.

Harvey's dad said, "Hey Harvey!-Go and build a pit of lego and a flying car."

Harvey got some round blocks and some side blocks. He put the blocks together, to make the pit and the car.

Lincoln's dad said, "Hey Lincoln!-Go and build a car and a roller coaster out of lego."

Lincoln got a windscreen, some tiny wheels and some seats. He put them together to build the roller coaster and the car.

When the boys were finished building, they played with the lego.

CHAPTER 2: PLAYING AND BUILDING

Sam got into his lego army tank and he started to shoot out bombs.

He shot a lego crocodile.

He shot a lego duck.

He shot a lego snake.

He shot a lego dog.

Harvey screamed, "stop shooting things!"

Sam said, "get out of my way, or I'll shoot you too!"

Sam fired a bomb at Lincoln's roller coaster. Lincoln was on the roller coaster. He jumped out, just in time. The roller coaster blew up.

Harvey got a lego shield and Sam fired a bomb at the shield.

The bomb bounced back off the shield. Sam jumped out of the tank. The bomb blew up Sam's army tank.

Harvey said, "I'm hungry!" So, he ate a lollipop.

CHAPTER 3: MORE INVENTIONS

Lincoln and Harvey quickly built another invention. It was another monster truck. It was bigger than Sam's monster truck.

They got into the new monster truck and chased after Sam. Lincoln was the driver. He put the new monster truck on full speed and did a burn out.

Sam quickly jumped into his monster truck, and went up a big ramp. He flew over a lego river and into a lego forest.

Lincoln and Harvey followed Sam over the ramp and into the forest. In the forest there were:

lego monkeys,
lego tigers,
lego beavers,
lego elephants,
lego cheetahs,
lego lions,
AND lego crocodiles.

Sam drove his truck up a tree, to get away from Lincoln and Harvey. When he was up the tree, a magpie swooped him. Sam jumped out of his truck and lifted it up. Sam was very strong.

WACK! He hit the magpie with his truck.

Harvey screamed, "get down from up there, Sam!"

Sam lifted up his truck and threw it to the ground.

Lincoln quickly built a lego ramp and then he did a backflip in his monster truck.

Sam jumped out of the tree, and Lincoln and Harvey got out of their monster truck.

The three boys got some blocks and together they built a ginormous lego plane.

CHAPTER 4: BACK TO DENI

The boys got in the plane and flew it out of Lego World. They flew it all the way back to Deni.

After they landed, they all went to Sam's house and started to build with Sam's legos.

Harvey built a petrol station

so he could get rich
selling petrol.

Lincoln built a robot

with some
booster jets.

Sam wanted to build another army tank, BUT, Harvey and Lincoln said, "no way!"

So, Sam built a Superman with laser eyes. It had a remote control.

All the boys were very happy.
