A note from the Principal

Welcome all to the awesome publication that is the 2019 School Magazine. It is wonderful to see a collection of student work in one place that demonstrates the journey of learning that has occurred in one year of a child's Primary school life.

Being Principal of Deniliquin North is a constant reminder of how inspirational children are. I am still continually surprised at the amazing students at North and the things they can achieve.

I wish Year 6 the best of luck in High School and beyond. I can't wait to hear about your accomplishments in the future.

There are many people to thank in the publication of a magazine like this. Firstly, to the very generous community of sponsors, who's names are printed at the bottom of each page and inside the back cover, we thank you. You make it possible for us to provide all of our wonderful students with a memento of the year. To the staff and students who have prepared work for publication, thank you. Without you there would be no magazine.

I wish everyone a very Merry Christmas filled with the happiness of family and friends. Be safe and ready for another wonderful year of learning at North in 2020.

3D at Anglesea

We went on a school excursion to Anglesea. We did lots of fun activities and one of the activities was a beach carnival. I was in the black team and I liked making sandcastles with my friends. Amy

This is the time we went rock climbing. We had to wear a helmet and a harness. There was a room called the bouldering room. It had no rope to climb on, we just climbed along the wall, and if we were struggling we just fell on a squishy mat. Brydy B.

I had a great time at camp. One of my favourite things I did at camp was the beach carnival. There were different coloured teams - white, yellow, black and red. I was in the black team and we placed 3rd. Annabel

At Anglesea I had a go at archery and I hit red, black and white. I had fun on the beach. My favourite food was the bananas. Aiden

One of my favourite activities was the giant swing. The giant swing was 18 metres off the ground and we got to choose how high we wanted to go and I went 18 metres off the ground. Brydey M.

At Anglesea we went to the beach for the beach carnival and I was in the black team. Then we had time to make sand castles and I buried myself and it was really hard to get out of the sand castle. Charli B.

3D at Anglesea

At Anglesea, group one went on the giant swing. It was fun to have a go. Once you hop on the giant swing and I went to the top it felt creepy. Stuart

The rock climbing wall was one of my favourite activities at Anglesea. I touched the top of the difficult wall, it was hard but I got there in the end. Tamika

I liked the beach because it was fun, I loved swimming with the waves.

At Anglesea there was a huge bush playground, we played gang up with all my friends.

I liked watching movies on the bus. Riley

I liked the beach carnival the best because we had a running carnival. We also made sand castles and dug for water, but it got filled in. We won the beach carnival which was good but we were bad at making a team song. Xander

In Anglesea we did so much fun stuff. Overall, my favourite activity was rock climbing because it pushes you to get to the high red bar. On the actual rock climbing wall I only did the easy ones. It was strange, the easiest one wasn't the easiest for me, it was the hardest. In fact I found the flat harder wall the easiest. Kyah

Year 4 Pushcart to Maryborough

Our favourite thing doing pushcarts was building the pushcart. We also liked the racing in the obstacle, sprint and endurance. We liked the camping because we stayed up late and Rory got dragged away in his swag. We also liked the HPVs which are human powered vehicles. We liked watching them crash.

By Charlie McCallum and Harry Bull

My favourite part before I went to the pushcart challenge was the nervousness we had. I had to push myself a lot and getting fit was our priority.

At Maryborough it was lots of fun when we reached the finish line after the obstacle, sprint and the endurance races. I loved watching the HPV races. I loved watching the crashes.

By Ellie Gavel

I liked Maryborough because it was fun and challenging. On Friday in the morning we did the endurance and we came 3rd in our heat. On Friday arvo we did the obstacle course and we got no penalties. On Saturday morning we did the sprint race and I injured my knee but I still raced.

By Megan Lawson

At Maryborough when we did our first race which was the endurance. I had butterflies in my stomach, but in the end we came third.

The obstacle course was my favourite. Because it was the shortest even though I was pushing the cart the whole time it was still a fun race.

By Addison Mutch

Year 4 Pushcart to Maryborough

The thing I liked best was all of the effort it took to build our awesome pushcart! The thing I liked best about going to Maryborough was the effort it took to get there. And doing the obstacle race.

By Fletcher Campion

In Maryborough we stayed up really late. On the first night we made 2 friends, one of them gave us lollies. On the second night Rory got a swag drag. By Oliver Donaldson

One of the things that we learnt was to work as a team. At the start of the year we wouldn't cooperate with our class mates but now we can do things out of our comfort zone with pride.

One thing we had trouble with was getting a boy or girl partner because we weren't familiar with doing these types of things. By Stella Bashford

The thing I liked best about the pushcarts was practicing racing them at school. I raced in the endurance race with Megan. By Matthew Pitt

We learnt better driver skills. It was lots of fun building the pushcart. It was fun going out every Friday to practise.

It was fun watching the HPV's fly around the corners. It was also fun playing chasey on the grand stand and watching tents blow away. The pushcart races were fun. It was funny watching Rory get dragged away in his swag. By Rory Smith and Mitchell Grimwood

My favourite thing was watching my team race and getting things from the canteen. By Pip Crozier
