“agnus, come outside and play with me.” screamed Clary.

“No,” bellowed Magnus.

Magnus was inside while Clary was outside jumping on the trampoline.

“Ahhhhhhhhhh,” a voice came from outside.

Magnus ran to see what happened. When he got outside, Clary ran inside at the pace of a bullet train.

Magnus had a look and he saw a majestic like unicorn, a terrible shark, a bald donkey, a sharp rocket and a magical bird all in one. Magnus had a good look again and he could see the uni-sharkadonkey-brocket had children in its pods.

The uni-sharkadonkey-brocket flew off shooting up into the sky. Magnus ran and collected Clary and they jumped in their invisible jet. They followed the uni-sharkadonkey-brocket to its cave.

Magnus and Clary followed uni-shark donkey-brocket in and they saw that it was getting all of the children out.

Magnus ran out and announced, "What are you going to do with them?"

“I’m going to keep them as my friends until they are wrinkly, decrepit old people.”

“So that’s why you kidnapped the children,” cried Clary hiding behind a rock.

One of the kidnapped children threw a stick at the uni-shark donkey-brocket. It went berserk making the cave collapse.

Magnus and Clary ran and got the children. They all escaped in time. but the thing was still in there, to live another day.
