Book: Something Millie Will Never
Forget

It was morning and Millie was at school. She had to do an assignment on a creature. Millie chose a pegasus. She had to write information on it in an article. All of Millie's friends thought that she was silly to choose a pegasus.

I think
the p's
real

A couple of days later Millie found some really cool information on the pegasus' and she thought they were real.

Millie told **EVERYBODY** at school that she was going looking for a pegasus and **EVERYBODY** at school laughed at her and thought she was stupid.

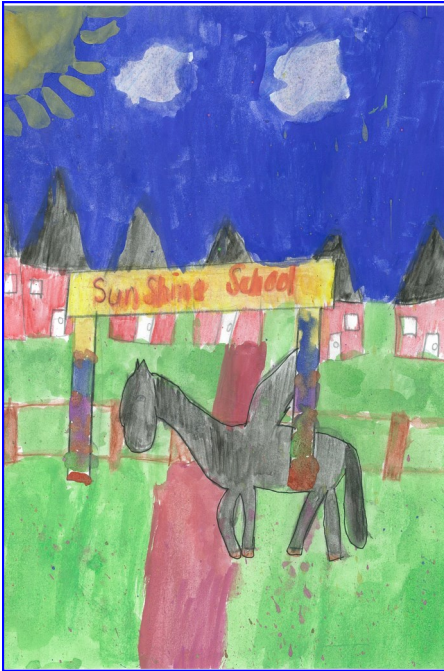

The next day Millie went looking for a pegasus. It was a very, very dangerous trip in the snow but Millie was ready for it. She was risking her life. She took a camera, rope, food, water and a sleeping bag.

Millie heard something BIG in the bushes.

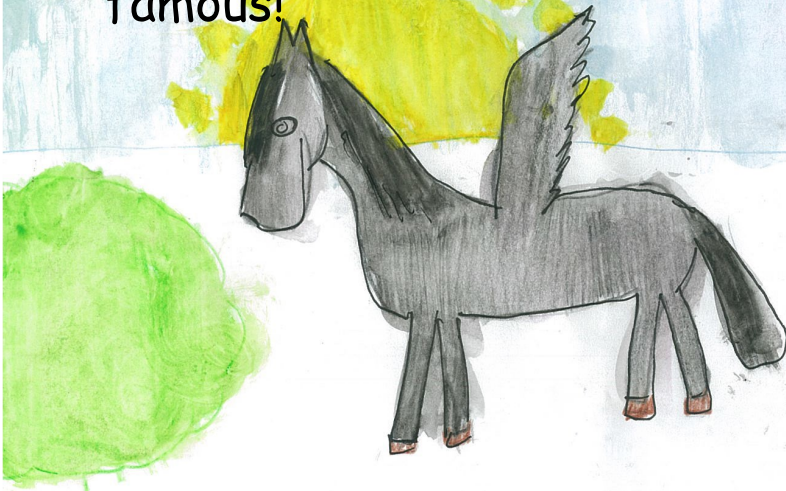

She got scared and then, "Neigh."

It was a Pegasus! Millie got a rope out of her bag, took some pictures and selfies with it and then jumped onto the pegasus. They flew to Millie's house.

Millie went to school the next day and showed everyone the pictures and selfies that she took with her pet Pegasus. She even took it to school one day and gave the kids rides on it. Everyone thought that Millie was so cool and everyone was nice to her. They admired her.

Millie was the most popular kid in her large school just because of her pegasus. She was awarded 'Prefect' of her school and she was filmed on TV. Millie was famous!

Millie let the Pegasus go back into the wild because it was lonely and it's only friend was Millie.

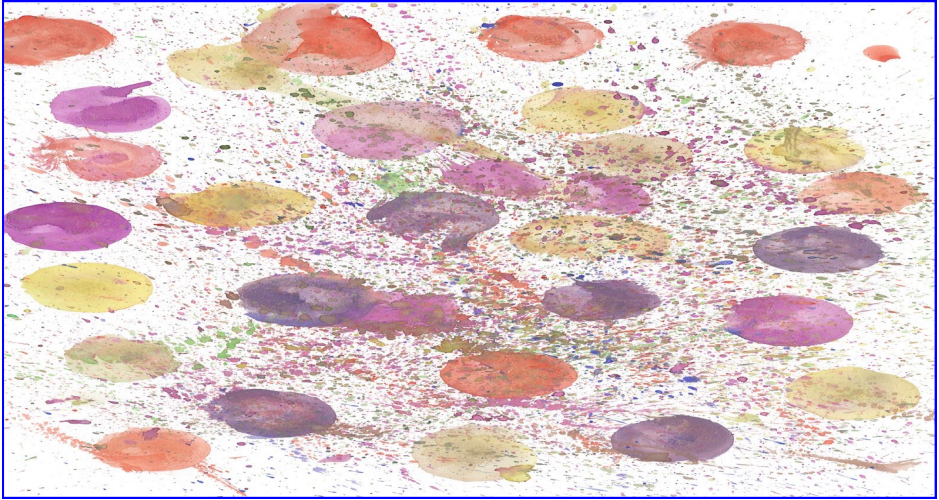

Millie woke up the next morning knowing that she dreamt everything. She went to school and told **EVERYONE** about the amazing dream she had.

That was something Millie would never, ever forget in her life!

My name is Charlotte Strong. I love animals, love to explore and take risks.

I chose a pegasus to write about because this is a fantasy book which means that pegasus' aren't real. I really hope you've loved reading my book. That was one of my dreams.

What they said about-'Something Millie Will Never Forget':
