Xatie Spencer was an ordinary girl living in an ordinary street, until 2 years ago. Let me take you back.

Katie Spencer lived with her parents. One rainy day when it was pouring down, Katie went to her room. She wished she could see space and wondered if the imaginary creature she called 'Sheepfly', would come alive in her time of need.

The next day it stopped raining. Katie went outside to go and jump in the puddles, but as soon as she went to jump she started flying. Up, up, up she went until she couldn't go any higher!

Katie opened her eyes, it was dark. She saw this giant circle in front of her. It was Earth. But guess what was behind her? No surprises there- it was the MOON!

She flew around for a few hours until she got bored, she wanted to go home. But when she went towards Earth she couldn't get back, some sort of force field was holding her back, she tried again, the same thing happened.

Katie sat in space for a few more hours. Soon enough, she saw something in the distance. It came closer by the minute. Finally it came really close so she could see what it was and guess what? It was her imaginary creature. Sheepfly.

She was so happy, she hopped on Sheepfly`s back and headed towards Earth. Earth drew closer, closer, even closer, a lot more closer and all of a sudden, POP! She was in! She was in! She took a deep breath trying to take it all in.

Katie Spencer was back home safe and sound. Sheepfly left. She promised to never wish or wonder again but that promise was soon to be **BROKEN!**
